“ If greatness can be judged on the grandest of scales because of the opportunity to achieve greatness, so it can also be judged on a scale that has more to do with a person's heart and their acts and the quiet dignity in which they simply went about living their life-- while looking out for others. William H. Cook dodged bullets, literally and figuratively, both on the battlefields of WW2 and later at home, with the longÂ suffering from his war wounds on his flesh and his mind.
Â I owe an awful lot to my Uncle...and I will long remember that part of what I owe him is my freedom.
