“ I worked with Caleb at Tri Rivers. Hearing this news just broke my heart. Over the past years, when I used to do auths for radiology, he would always call or text me for help because he knew I would answer the phone and get it done. When he took the job as project analyst, he worked some days in my building, so I was finally able to meet him in person. He insisted on buying lunch for me and another co-worker in my dept so we could catch up and get to know one another more. He joked at me trying to figure out what to order because I can't do gluten, lol. Caleb told me he wanted to get me flowers on my daughter's birthday in March (she was disabled and passed 3 years ago). He said he talked about it with his mom but didn't want it to be weird so he didn't do it. I couldn't even believe that he thought about it... Just showed how big his heart was. I didn't get to know him as well as so many of our other co-workers have, but I am so grateful I was able to meet him in person and talk. He was an amazing bright soul and I will miss his face, his texts, his voice always saying "hey friend" when he'd see me... His heart was bigger than anything I can compare it too. He will be forever missed, but will definitely live on in the hearts of so many people... I pray for his entire family, that you always find comfort in his memory. Losing my own brother at age 36, and then my daughter at age 13, I will never understand these types of losses, especially something as tragic as this... very hard to come to grips with, but I believe Caleb will continue to shine his light, just now from the clouds above... 💕
