“ *This just seems so unreal. I will always remember you at the end of the hall waving to me, coming into our break room just to see how I am doing, you looking for the wildlife outside the door, how you loved being outside, your jokes and how you just loved to have fun and socialize. I will miss you Cookie! You were loved by all of us at Sugarcreek PC. My thoughts and prayers are with Christine and Ginger during this difficult time.*

“ *I work evenings and nights at Sugarcreek PC. Cookie was truly one of the highlights of my night. She was a kind and helpful soul, always looking after wandering residents pointing them in the direction of their room. She would stand outside her room and wave really big when I arrived for my shift. You could always find her at the end of the hall watching the deer in the field and letting us know how many there were. She loved being in charge on popcorn night making popcorn for the other residents in the popcorn machine her daughter bought her. She loved loving on my dog Roscoe. She said he reminded him of her dogs and would tell me all about them. She was a real sweetheart who touched my heart in a big way. I miss her terribly already but her smiling personality will always be remembered in our building. Ginger and Christine my heart goes out to you. I pray that your Mom's wonderful memories will see you through this most difficult time.*
