“ I had the pleasure of visiting with Twila at least weekly at the nursing home while being there to visit my mom. Twila & I would tell stories to each other & laugh a lot. She love my "Little Dog" & his visits. Unfortunately due to covid the visits were not as easy & my visits became cards & notes. My condolences to her family & please know I will always smile at those sweet memories of her. Her nursing home girlfriends also send their condolences along the way & miss her deeply.
